THREATENED TO SHOOT.—On Saturday afternoon last Anthony Shutter went out gunning, and near Mt. de Chantal tried his prentice hand on some ducks belong ing to James Faddis. Two of the ducks were killed, and upon discovering his loss Faddis remonstrated with Shutter and asked him to pay for them. Shutter replied by threatening to shoot him, whereupon Faddis came to the city and had a warrant issued for Shutter by Juntice William Phillips. The case was examined yesterday afternoon, resulting in Shutter being required to give bond in the sum of \$100 to keep the peace for six months, and to pay for the ducks he killed.

TRANSFER OF REAL ESTATE,-The fol-TRANSPER OF REAL ESTATE.—The following transfer of real estate was yesterday admitted to record in the office of the Clerk of the County Court:

Deed made March 28, 1878, by John McConnell and wife to Frank Miller, for 103 acres and 25 poles of land on the east bank of Gillespie's Run, a branch of Middle Wheeling Creek; \$3,000.

DANGEROUS WRICK.—The coal bargo which was sunk last fall just below the suspension bridge, in the deep water, has moved down to a point about opposite the lower end of Booth & Bon's wharfboat. The wreck lies squarely in the channel, and the break is quite plain at the present stage. It is in a dangerous position and ought to be removed at once.

PROTESTING AGAINST CONVICT LABOR.

The workingmen of the city are becoming aroused upon the subject of convict labor, and propose to make a vigorous fight against the employment of that class of labor in all cases where if comes into competition with the usual mechanical pursuits. For this purpose representatives appointed by the various trades unions of the city held a meeting on Saturday last and prepared an address upon the subject to the people of the State, which was unanimously adopted. The address declares that "it is a well known fact githat throughout our land industry is gdeprived of its 'just reward, and hundreds of thousands of honest, sturdy mechanics and laborers are out of employment, while all receive unremunerative wages." One of the causes of this unsatisfactory state of affairs is given as "the hiring out of the labor of convicts to unscrupnious contractors, who get their work done for hitle more than nothing, and dispose of wares so manufactured to large dealers below the market price, thereby forcing legitimate manufacturers to the necessity of reducing the wages of their employes in order to compete with those soul-less contractors and vile outcasts." The address closes with the following appeal: "It should be the aim of governments."

ployes in order to compete with those soul-less contractors and vile outcasta." The address closes with the following appeal:
"It should be the aim of governments to keep all the people employed, for it seems to be an admitted fact that idenees is the parent of crime. It, therefore, through class legislation a pampered lew obtain possession of all the wealth at the expense of the industries of the country, thereby throwing the muscle and sinew of the land into idlenees, poverly and despair, then criminals, will increase, and as these criminals are forced to labor, the inevitable logic of it all is that in order to obtain employment a workingman will have to become a criminal. In view of the proposed iniquity of hiring out convict labor, we appeal to all who live or would live by honest labor to buy no wares that are manufactured by convicts, and to patronize no dealers who have such wares for sale, and we invite the co-operation of all persons to aid us in putting an end to the evil."

A petition asking the Governor and Board of Public Works to use their influence in attaining the object sought has been prepared and is now being circulated throughout the city for signers. In conversation with several representative workingmen yesterday, we were informed that these petitions are to be sent to all parts of the State for the signatures of citizens. It is hoped by this means that a thorough organization of working men, mechanics, and others interested, may be effected without delay. The petitions circulated in this city are very generally signed by manufacturers, business men and others. The leaders of the movement claim that fully inne-tenths of our best citizens sympathize with them. A mass meeting of workingmen is talked of, but as yet no definite arrangements have been made for one.
